Paige, thank you so much for all the edits, I really appreciate the time you took on this project. As you know we are on a FAST TRACK, however, I will get with you on Monday and try to be sure you get a second look. I'll be attending at least part of the OSC meeting.  
Thanks again.

**Subject:** RE: EXPLO

I think the term "Tritonal" needs to be changed to Tritonal and/or Tritonal mixtures throughout all the 104(e) letters; and throughout our correspondence from now on. The material at the EXPLO site is not pure Tritonal. It may or may not have arrived as pure Tritonal. Its' current state is a mixture of Tritonal (which contains aluminum and TNT), TNT, organic materials (pallets, wax, sawdust, etc.). I do not want the language we use to misconstrue or limit our questions and thus limit the information we are provided in return.

I'd really like to get a second look at the EXPLO 104(e) before it goes out, if that's possible. Please let me know if you have objections or need clarification on what I've stated above.

THANKS

I love you, but I'm not. I'm at the COOP. Had a deadline today and needed to escape everyone

I have never E-Routed. I don't want to burden you with anything else. I also don't want to be a hold up

Lydia would like for you and Susan to sign off on these letters specifically because they have some programmatic questions. So yes, please do, and I'll get you a final version.

Thanks for EVERYTHING,

I am not required to approve these, correct?

When they are approved, can I have an electronic copy for my reference? THANKS!!

I am putting 4 Information Request letters into concurrence today for the EXPLO Site. We are under a lot of pressure to get these out ASAP. Please keep these letters moving. If you have a problem with e-routing or want to make an edit, please let me know, and I'll try to help.

Thanks
